degrees C  
Temperature wet bulb: 12.26  
degrees C

**TAS Jacquelyn Hams and Steve Foye, Boatswain  
Group Leader on fantail of the RAINIER**

Today I caught up with the TAS logs and began organizing lesson plans. An Abandon Ship drill was held at 1515. I videotaped an interview with crew member Jodie Edmond, Able Seaman.

Jodie received an AA degree from a community college and has a very interesting background. She has driven boats for the Kenai Glaciers and Fjords Tour in Alaska and worked in several national parks. Jodie is studying for her captain's license with NOAA's support. Jodie's video will be posted to this site in the future.
